Subject: Thank you , Nikki

Dear Friends and Family,

Today is 11 years since our little girl, Nicole Kimberly (AKA Nikki), crossed over Rainbow's Bridge. As I remember her today, and the 14yrs 8mos, that she shared with me in her physical body, I feel amazing appreciation for all she taught me. Because of her life, her illness, and her death, my life was forever changed. The new direction I was lead, because of her, allowed me the gift of knowing many wonderful people, I would have never met without her.

In her honor, I ask that each of you remember someone you loved, who changed your life just by knowing, and loving them. Please, also keep in thought and prayer, all the men and women in the service, who have helped to keep us safe, now and in the past. Life can be painful and challenging, but each of us has something every day to be thankful for. Today is a good day to remember that.

Blessings and Happy Memorial Day,
Donna and Family
